

"Technology Leadership"

- Precise motion and control for patient safety
- Low noise for quiet operation
- Compact design for small footprint
- Custom engineered for application requirements

"The Safe Choice"

- FDA compliant development system
- ISO 13485 certified
- Vertically integrated manufacturing
- Long life for high reliability

Motion & Control Solutions for Diagnostic Equipment

Digital Microscopy

- High throughput, high resolution digitization Custom
- speed & precision for image accuracy
- Compact and lightweight design

Analytical Instruments & Chromatography

- Position resolution to 10nm for rapid move & settle
- Unlimited travel for multiple sample slides
- Through-stage light transmission

CT & MRI Machines

- Non-magnetic materials for safety
- Fail safe amplifiers
- High static holding with no power consumption at rest

Blood Pressure Meter

- Long life for high reliability
- Lightweight for patient design
- Low noise for quiet operation

Blood Glucose Monitoring

- High reliability
- High power density for compact size
- Low power consumption

Johnson Electric creates custom solutions beginning with our wide range of component technologies

Piezo Motors

Piezo Stages

DC Motors

Pumps

Panel Mounted Joysticks
