

Industry Product Group – Switches

Statement

Hereby we certify that our switches do not contain banned substances and comply with the requirements of the European Directive

2002/95/EC (RoHS)

on the restriction of use of certain hazardous substances in electrical and electronic equipment and its amendments (2005/618/EC and others).

To the best of our knowledge, our material suppliers do not use in the manufacture of their products the hazardous substances which are listed in the above mentioned EU Directive.

However, we do not routinely analyse the materials for the hazardous substances nor we do require our material suppliers to do so.

This statement covers also switches with pre-mounted wires, connectors, plugs etc. and components of switches which will be delivered separately such as actuators and caps.

We hope for your understanding, that we for our multitude of products and customers can not answer customer specified questionnaires.

Place and date: Halver, 2011-03-01
