

## "Technology Leadership"

- High speed for fast operation
- High efficiency for low energy consumption
- Compact design for small footprint
- Custom engineered to exact requirements

## "The Safe Choice"

- Rugged design for extreme environments
- Long life for high reliability
- High precision for exact operation
- Global footprint for assurance of supply

# Motion & Control Solutions for Industrial Valves

### Pinch Valves

- Highly precise fluid and lubricant control
- High power density for compact design
- High efficiency for low power consumption

### HVAC Valves

- Instant actuation for fast operation
- Smooth variable positioning
- Custom drive electronics for ease of control

### Air Valves

- High power density
- Compact design
- Custom engineered

### Water Valves

- Long life
- High efficiency
- Speed control for variable flow

### Oil Valves

- Precise operation
- Compact design
- Robust packaging

Johnson Electric creates custom solutions beginning with our wide range of component technologies

Tubular Solenoids

Open Frame Solenoids

DC Motors

Synchronous Motors

Stepper Motors

Snap Action Microswitches
