

WARRANTY NOTICE REGARDING FLEXIBLE PRINTED CIRCUIT PRODUCTS

Johnson Electric's warranties and recall responsibilities for flexible cable circuit ("FPC") products do not cover defects, damages or malfunctions resulting from: i) use of the FPC in applications not originally validated by Johnson Electric or in other than normal and customary manner; ii) misuse, accident, neglect, improper storage/handling, or exposure to operational or environmental conditions and/or other stresses not conforming to the specifications or requirements as set forth Johnson Electric's FPC product documentation; iii) unauthorized alterations or repairs, use of unapproved parts, iv) the combination or interfacing of the FPC with other products or software not supplied by Johnson Electric, in each case in a manner not approved by Johnson Electric.

For detailed information on handling FPC in transportation, storage and assembly process, required environmental conditions such as humidity, temperature and sanitation, as well as normal and customary use of FPC and its limitations in a vehicle, please refer to "*FPC Handling Guide & Limitation Of Use For Automotive Applications*" (document 20160720ALOU Rev: 1).
