## **Annual Results**

### **Investor Briefing**

**Overview**

Why Invest in Johnson Electric?

Key Financial Highlights

Operating Results

Outlook

Supplemental Information

## Overview

### Automotive Products Group

APG provides motion-related components for all vehicle types. We are well-placed to capitalize on expanding New Energy Vehicle (NEV) markets

### Industry Products Group

IPG serves a wide range of industrial, professional and consumer segments. We are actively pursuing opportunities in smart home, electrification of lawn care, medical devices, warehouse automation, data center cooling and robotics

### Components & Services

Our technical expertise, in-house tool rooms and vertical integration of component supplies are the backbone of our manufacturing, enabling consistent quality, cost excellence and assurance of supply

**Improving the Quality of Life of Everyone We Touch Through Our Innovative Motion Systems**

## History & Development

## Driving a Sustainable Future

# Strategies

## Focus

on serving customers whose products are aligned to key underlying trends:

- reducing greenhouse gases and other emissions
- improving health and safety
- increasing mobility and controllability

## Invest

in technological innovation to provide unique motion solutions to customer problems and redefine industry standards

## Build

a resilient global manufacturing footprint to provide:

- greater customer responsiveness
- improved cost competitiveness
- reduced exposure to tariffs, foreign currency volatility and single country risk

## Align

the design and production processes with the industrial logic of advanced automation to continuously reduce cycle times and improve product quality

## Acquire

selective businesses that bring complementary technologies to the Group and strengthen our position in key markets

## Develop and retain

a diverse, talented, and inclusive team of people

## Johnson Electric at a Glance

### FY25/26

Providing motion solutions  
to approximately  
**1,500 customers**

Operating in over **20 countries**  
across **4 continents**

Employing over  
**30,000 people**  
including more than  
**1,600 engineers \***

\*Engineering expenditure was 5.0% of sales inclusive of R&D

Making over  
**4 million products\*** per day  
\*motors and other motion related products

Generating total sales revenue of  
**US\$3.7 billion**  
and net income of  
**US\$202 million**

# FY25/26

## Annual Results

### Investor Briefing

Overview

**Why Invest in Johnson Electric?**

Key Financial Highlights

Operating Results

Outlook

Supplemental Information

## Why Invest in Johnson Electric?

One of the World's **Largest Providers** of **Motion Solutions** in electric motors, actuators, motion subsystems and related electromechanical components

- **Innovative motion solutions** for today and the future
- **Geographically diverse, blue-chip customer base**
- **Global operating footprint** with **vertical integration**
- **Winning market traction** for long-term growth
- **Improving quality of life** for everyone and creating a sustainable future

## Innovative Solutions

# For Today & the Future

### Automotive

Subsystems and components that enable electrification, optimize thermal management, and provide comfort and safety

### Smart Home & IOT

Home automation for windows and robotic floor care. Automated food and beverage preparation equipment

### Electrification & Environment

Zero-carbon solutions for mobility, lawn care and outdoor tools. Low-carbon solutions for a wide range of industrial, professional and consumer products

### Healthcare

Medical device subsystems for improved patient outcomes. Surgical and diagnostic devices and medical wearables

### E-Commerce & Industrial

Industrial equipment, smart metering, warehouse automation, data center cooling solutions and robotics including humanoid robot components

## Our Divisions

### Automotive Products Group

- Braking
- Closure
- Interior
- Powder metal products
- Pumps
- Steering
- Suspension
- Thermal management
- Transmission & driveline
- Vision

### Industry Products Group

- Business equipment
- Data Center Cooling
- E-bikes
- Home automation
- Industrial equipment
- Lawn & garden
- Medical devices
- Power tools
- Robotics
- Smart metering
- Ventilation
- White goods

### Components and Services

- Bearings
- Commutators
- Die cast components
- Housings
- Laminations
- Magnets
- Plastic parts
- Powder metal components
- Printed circuit board assemblies
- Shafts

## Diversified Sales FY25/26

### By Major Lines of Business

### By Destination

Note: EMEA: Europe, the Middle East and Africa

## Diversified Customer Base

## World-class Customers Across Diversified Industries

## Market shift to net zero

### Accelerating APG's Growth Opportunity

Strong and growing demand for innovative, cost-effective solutions addressing:

- Vehicle electrification across critical systems
- Advanced thermal management requirements
- Emissions reduction and energy efficiency

### Global Light Vehicle Production Outlook

Source: S&P Global Apr 2026

# Increasing Content Opportunity per Vehicle from ICE to Hybrid / BEV

% Change in  
Dollar Content per  
Passenger Car

## Potential opportunities for NEVs

Note: Johnson Electric analysis – indicative based on current available market intelligence and estimates. This forward-looking projection of content opportunities is based on numerous assumptions regarding future developments in plug-in hybrid and electric vehicles. It may be updated depending on market trends and technology trajectories. The actual performance of Johnson Electric may be materially different from any performance expressed or implied.

## Electrifying critical EV functions

### Thermal Management

Enabling critical EV thermal management systems for enhanced driving range, extended battery life & shortened charging times

- ITMS
- Electric water pump
- Valve actuator
- Electric oil pump
- Cooling fan

### Braking System

Enabling safety & shorter braking distance, auto-hold/ parking function of EV

- Brake booster
- Electric parking brake
- Lock actuator

### Steering System

Electrification of steering and smart cabin features for EV

- Electric power steering
- Steering column adjuster

# Recent Automotive Business Wins for New Energy Vehicles

Our innovative products are winning business on major NEV platforms

## Braking Applications

**Brake booster, e-parking lock, e-parking brake and electric vacuum pump** for safety and shorter braking distance, lower weight, and energy regeneration

## Interior and Vision Applications

**Window, door, seat and headlamp actuator** for more comfortable, autonomous and automated features

## Powertrain Solutions

**Mechatronics e-pump** for lubrication and cooling of e-axle | **e-Clutch** to support start-stop, sailing, etc.

## Thermal Management Applications

**Electric water pump, cooling fan module, integrated thermal management and other cooling components** for thermal management of battery, traction motor, power electronics and other critical components

## IPG Growth Supported by Megatrends

“ Our focus on these sectors positions us to capitalize on emerging trends and innovations in the market ”

Focusing on sustainable growth prospects

Touching Human Needs

Improving Performance

## Winning Market Traction

### Medium-term sales outlook

New business wins and opportunities are set to accelerate growth

Note: Estimated total Group sales outlook based on customer order book and forecasts, and other forward-looking indicators, assuming no acquisitions, macro-economic cyclical downturns or other market disruptions.

## Global Operating Footprint

Operating in over 20 Countries across 4 Continents

# Our Sustainability Framework

About our sustainability logo: The five leaves represent the five spirits of sustainable development and connect to form a blooming flower. The logo conveys a sense of continuous rotation, which also shows that we will continue to be a gear that animates society.

# Sustainability Successes

## Products

- **130** product carbon footprints quantified
- Avoided **1,540** tonnes of packaging materials by providing returnable packaging services to customers

## Environment

- **100%** renewable electricity usage
- **3% reduction** in waste intensity per sales from FY20/21 baseline
- **4th consecutive year** achieving zero waste to landfill

## Employees

- **92%** of sites by number of hours worked hold ISO 45001 certifications
- Lost-time accident rate and recordable injury rate **well below** industry averages

## Communities

- More than **1,750** students have now graduated from our Johnson Electric Technical College
- More than **700** children joined the Junior Engineer program in 2025

## Trust & Transparency

- **88%** of suppliers by direct material spend assessed on ESG performance

Operating Results

Outlook

Supplemental Information

## Financial Highlights

| US\$ million                          | FY25/26 | FY24/25 | Increase / (Decrease) |
|---------------------------------------|---------|---------|-----------------------|
| Sales                                 | 3,650.4 | 3,647.6 | 2.8                   |
| Gross profit                          | 840.5   | 843.3   | (2.8)                 |
| Gross margin                          | 23.0%   | 23.1%   | -0.1%                 |
| EBITA <sup>1</sup>                    | 257.7   | 330.6   | (72.9)                |
| EBITA adjusted <sup>2</sup>           | 287.4   | 344.3   | (56.9)                |
| EBITA adjusted margin                 | 7.9%    | 9.4%    | -1.5%                 |
| Profit attributable to shareholders   | 202.1   | 262.8   | (60.7)                |
| Adjusted net profit <sup>2</sup>      | 221.9   | 274.0   | (52.1)                |
| Diluted earnings per share (US cents) | 21.59   | 28.16   | (6.57)                |
| Capital expenditure                   | 285.0   | 195.5   | 89.5                  |
| Capital expenditure as a % of sales   | 7.8%    | 5.4%    | 2.4%                  |
| Free cash flow from operations        | 217.3   | 285.7   | (68.4)                |

1. Earnings before interest, tax and amortization
2. Adjusted to exclude impairment of intangible assets, unrealized gains or losses relating to exchange rate movements as well as restructuring and other related costs

Note: Numbers do not add up due to effect of rounding

## Financial Highlights

| US\$ million            | 31 Mar 2026 | 31 Mar 2025 | Increase / (Decrease) |
|-------------------------|-------------|-------------|-----------------------|
| Cash <sup>1</sup>       | 901.9       | 790.6       | 111.3                 |
| Total debt <sup>2</sup> | 324.3       | 359.3       | (35.0)                |
| Net cash <sup>3</sup>   | 577.6       | 431.3       | 146.3                 |

| Key Financial Ratios                                    | 31 Mar 2026 | 31 Mar 2025 | Increase / (Decrease) |
|---------------------------------------------------------|-------------|-------------|-----------------------|
| Total debt to capital <sup>4</sup>                      | 10%         | 12%         | -2%                   |
| Gross debt <sup>5</sup> to EBITDA adjusted <sup>6</sup> | 0.8         | 0.8         | -                     |
| Interest cover <sup>7</sup>                             | 21.9        | 17.4        | 4.5                   |

1. Cash and cash equivalents
2. Bank loans and other miscellaneous borrowings
3. Cash and cash equivalents less total debt
4. Capital equals to total equity plus total debt
5. Including pension and lease liabilities
6. Adjusted earnings before interest, tax, depreciation and amortization, giving adjusted EBITDA of US\$533.4 million (31 March 2025: US\$582.2 million)
7. Adjusted EBITDA divided by gross interest expense. The Group has updated the calculation of this ratio to use adjusted EBITDA; the comparative figure has been re-presented accordingly

Note: Numbers do not add up due to effect of rounding

# **FY25/26**

## **Annual Results**

### **Investor Briefing**

Overview

Why Invest in Johnson Electric?

Key Financial Highlights

**Operating Results**

Outlook

Supplemental Information

## Group Sales Changes FY25/26 vs. FY24/25

Group sales  
remained flat

APG impacted by  
customer mix in  
China and pricing  
pressures

IPG's growth driven  
by ramp-ups and  
new business wins

Favorable currency  
movements driven  
by stronger EUR &  
RMB against USD

US\$ million

Notes: 1. Automotive Products Group abbreviated as APG  
2. Industry Products Group abbreviated as IPG  
3. Numbers do not add across due to effect of rounding

## APG Sales Changes by Region FY25/26 vs. FY24/25

APG's sales were shaped by:

- Softer demand in China from non-domestic brands, partly offset-by new business awards from Chinese OEMs
- Pricing adjustments to maintain competitiveness

Note: EMEA: Europe, the Middle East and Africa

## Global Light Vehicle Production Multi-Year Changes

Rapid transformation in the automotive industry

- China continues to lead NEV adoption and innovation
- OEMs are reshaping product portfolios and go-to-market strategies to meet competitive and shifting consumer preferences

Note:

1. Actual, estimated and forecast light vehicle production volumes sourced from S&P Global May 2026
2. Arrows indicate year-over-year percentage change in light vehicle production volumes

## Multi-Year Sales Changes

Strong growth from FY21/22 through FY23/24

From FY24/25, industry transformation and changing consumer behavior resulted in temporary headwinds

Market refocus and expanding new business wins with leading Chinese OEMs firmly position APG for a return to growth

## IPG Sales Changes by Region FY25/26 vs. FY24/25

Asia-Pacific: Program ramp-ups and new business wins, resulting in strong performance

EMEA: Growth was driven by customer inventory replenishment and successful new product launches

Americas: Subdued demand was partially mitigated by strong piezo motor sales into semiconductor manufacturing

Note: EMEA: Europe, the Middle East and Africa

## Multi-Year Sales Changes

## Adjusted Net Profit FY25/26 vs. FY24/25

Profit decreased mainly due to price adjustments, wage inflation, higher operating expenses and other provisions

Partially mitigated by cost-reduction initiatives

US\$ million

1. Adjusting net profit to exclude non-cash foreign exchange rate movements, restructuring costs and impairment of intangible assets, net of tax, to provide additional insight into the underlying performance of the business

# Working Capital and Capital Expenditure

## Trade and Other Receivables

\* DSOs calculated on trade receivables only

## Trade and Other Payables

\*\* DPOs calculated on trade payables only

## Inventories

## Capital Expenditure

## Free Cash Flow from Operations

| US\$ million                          | FY25/26      | FY24/25      | Change        |

# Emerging Energy Infrastructure Applications

## Growing demand for resilient power infrastructure

- Rising electricity demand
- Increasing grid constraints
- Need for reliable distributed generation
- AI infrastructure as an accelerating demand driver

## SOFC enables independent power generation

- High electrical efficiency
- Scalable distributed deployment
- Hydrogen and natural gas compatibility
- Reduced dependence on centralized grid infrastructure

## Johnson Electric energy technology portfolio

- SOFC interconnect components
- Advanced coatings
- Metal hydride technologies
- Scalable within hydrogen and power infrastructure

## Johnson Electric leverages advanced manufacturing for fuel cell applications

- Decades of powder metallurgy experience
- Precision manufacturing
- Automotive-grade quality systems
- Scalable manufacturing

## Humanoid Robots

Joint Ventures with Shanghai Mechanical & Electrical Industry Co., Ltd. (SMEIC)

### Serving Humanoid Robot Markets in China

Joint venture agreements signed on 16 July, 2025

## Joint Ventures with SMEIC

Waist joint  
for pitch/rotation

Hip joint  
for pitch/rotation/roll

Dexterous hand actuators  
and sensors

Knee joint for pitch

Ankle joint  
for roll

### Components for Humanoid Robots

The Group is expanding  
into the humanoid  
robotics sector through  
joint ventures in China

*Note: The images shown depict sample products and are provided for reference only. They represent the general types of joints the JV is capable of manufacturing. Final product design, specifications, and appearance are subject to change and will be determined based on specific project requirements.*

## New JV “Jointelligence” Officially Unveiled in Shanghai

- Jointelligence unites Johnson Electric's **motion system expertise** with SMEIC's industrial strengths to drive innovation in **complete joint modules** – the “muscle” of the humanoid robot – technology in China through advanced research & development and manufacturing
- Jointelligence offers joint solutions tailored for both humanoid and wheeled robots, serving a diverse clientele ranging from automotive manufacturers to startups. These solutions are designed to enhance efficiency in applications such as automotive production, warehouse sorting, and commercial services.
- First supply agreement signed with the Shanghai National Humanoid Robot Center at WAIC

## Portfolio in AI Data Center Liquid Cooling Pumps

Efficient cooling for a sustainable future

- Technological advances are expanding data centers for cloud services and AI, worldwide, driving demand for reliable, sustainable, high-density cooling
- Johnson Electric offers innovative and high-performance liquid cooling pump for AI Data Center. Drives **Direct-to-Chip liquid cooling** for safe and reliable operation

**JE**Cooling
